

Westcliff Lawn Tennis Club
Health and Safety Statement

It is essential that we all work together to make Westcliff Lawn Tennis Club a safe and healthy environment

Whatever your age, you have a responsibility to ensure that Westcliff Lawn Tennis Club is a safe and healthy environment for everyone who uses the club, be that as a player, spectator or social visitor. This means everyone must take individual responsibility for their own belongings and actions to ensure they do not put either themselves or others in danger. It is also essential that everyone positively responds if they see a concern that could possibly cause injury. This may for example involve removing the risk, hi-lighting the concern to others, and if the concern cannot be permanently resolved informing a member of the Committee. Sept 2019
